Future history

Mitsubishi Lancer first hit the streets in 1973 and has never looked back. Over the past four decades, Lancer has evolved into a sports machine like no other, turning heads on city streets and rally courses alike. After nine generations of development, Mitsubishi's passion for driving has created a blend of power, performance and aerodynamics that will have sports driving connoisseurs instantly hooked, all combined with a style that is undeniably Lancer.

LANCER EX

www.new-lancer.com

A Sports Sedan Like No Other

Mitsubishi's new Lancer EX is more than just a sedan. From outstanding performance and rugged styling to a smooth ride and unparalleled comfort, every detail of this active sports sedan was designed to put a smile on your face, a thrill in your heart, and sheer driving pleasure in your hands. All you have to do is sit back and enjoy the ride.

2.0-liter GT / Sterling Silver Metallic [U25]
Equipment may vary according to market.

2.0-liter GT / Black seats
Equipment may vary according to market.

The best seat in the house

It's a shame, really. Something so beautifully designed that you'll hardly ever need to look at it. The cockpit of the new Lancer EX has been ergonomically laid out to put every control exactly where intuition tells you it should be. Paddle shifters and audio controls have also been added to the steering wheel, giving you the control you want without ever needing to take your eyes off the road ahead.

Black mesh print panels (instrument panel and front door trims)

2.0-liter GT / Black seats
Equipment may vary according to market.

The inside story

After the racing-inspired passion of Lancer EX's exterior design, what awaits you on the inside may come as a surprise. Serene and inviting, Lancer EX provides an environment free from the distractions of the outside world. Insulated doors keep out unwanted noise, while the automatic climate control and spacious seating make Lancer EX a pleasure to drive before you've even started on your way.

Rockford Fosgate® Premium Sound System

Excitement now has a soundtrack. This high-quality sound system includes a 710 W amp with DSP (Digital Signal Processor) plus a precision 9-speaker array with subwoofer. Balanced exactly to Lancer EX's interior acoustics, they turn the driver's seat into your personal concert hall.

Note: Rockford Fosgate® and associated logos are registered trademarks of Rockford Corporation in the United States and other countries.

9-Speaker System

The Rockford Fosgate® speakers and powerful trunk-mounted subwoofer deliver all the impact and sound reproduction of a quality home system, for full audio enjoyment every time you go for a drive. Output settings allow you to balance the output for rear passengers, front passenger, or when you have Lancer EX all to yourself.

2.0-liter GLS / Sterling Silver Metallic [U25]
Equipment may vary according to market.

Performance

However you choose to drive, the pure excitement of the rally courses that gave birth to Lancer EX is unmistakable. It's in the hum of power rising from beneath the hood, and the exquisite smoothness of the CVT as it shifts up and down. Once Lancer EX has spoken to you, you'll understand.

Engine and transmission

Sports Mode with Magnesium Paddle Shifters

Available on CVT models, Sports Mode lets you enjoy the racing feel of changing gears with a 6-step shift control that still provides the convenience of an automatic transmission. For even greater control, paddle shifters built directly into the steering wheel make shifting as easy as a single press of your finger.

CVT with INVECS-III (for 2.0-liter models)

With CVT (Continuously Variable Transmission), Lancer EX offers a new level of driving enjoyment: an automatic transmission that's quiet, efficient, and eliminates the harshness and power lag of traditional gear changes.

MIVEC Technology

MIVEC (Mitsubishi Innovative Valve timing Electronic Control) is an exclusive technology that adjusts intake timing for optimal performance across the rev range. At low ranges, MIVEC provides on-demand acceleration for quicker starts, while higher ranges receive an impressive boost of power.

2.0-liter MIVEC DOHC 16-valve (4B11)
Performance Curves

2.0-liter MIVEC Engine

Absolute thrill in a 4-cylinder package. Lancer EX's 2.0-liter powerhouse uses a lightweight aluminum block for optimum performance as it puts out 110 kW (150 PS) to take control of city streets and open highways alike. MIVEC technology provides optimal valve timing at both low and high rev ranges, to give you the most of every curve and straightaway out there.

1.6-liter MIVEC DOHC 16-valve (4A92)
Performance Curves

1.6-liter MIVEC Engine

The 1.6-liter engine is a concentrated rush of excitement, laying down enough power for sporty performance wherever there's pavement to be found. Like its bigger cousin, this engine also features an aluminum block for better efficiency and MIVEC technology for more aggressive starts and maximum high-range output.

Balance and control

Power without stability will get you nowhere fast. Lancer has long been known for pushing the envelope in providing drivers with unparalleled driving control, so as exceptional as the Lancer EX is, its advanced handling and stability should come as no surprise. Incorporating the lessons of the racetrack and the rally course, Lancer EX fuses quick-responding suspension with flex-resisting body construction for high performance driving that's sure and confident.

End-to-end Design Stability

Every piece of Lancer EX's body and frame has been designed with greater stability in mind. With a longer wheelbase and wider tracks than previous models, the new Lancer EX's larger footprint means greater stability, especially when cornering.

4-Wheel Independent Suspension

Incorporating front MacPherson struts and a rear multi-link system, Lancer EX makes sure work of unpredictable conditions. Responding exactly as needed, the independent suspension keeps all four wheels firmly on the ground for performance that's as reliable as it is comfortable.

Safety and reliability

The unexpected. You can't predict it, but you can be prepared for it. Because surprises can come in any form, Lancer EX includes an array of active and passive safety features to protect all occupants from harm. Powerful anti-lock brakes and brake-force distribution enable drivers to avoid hazards in the road, while the RISE body works to absorb collision damage and direct it away from the interior.

Note: Equipment may vary from the image shown.

7-Airbag System

To help keep occupants in every seat safe in the event of a collision, Lancer EX is available with a new 7-airbag system to provide increased safety from all sides. Curtain airbags extending along both sides reduce damage to front and 2nd-row occupants in a side collision, while the 1st-row occupants also have front and side airbags. For further safety, a driver's knee airbag helps reduce damage to the legs in a forward collision.

Note: Airbags are part of a Supplemental Restraint System (SRS). To decrease the risk of injury from a deploying airbag, always wear your seat belt, sit upright in the middle of the seat and do not lean against the door. Always place children 12 and under in the rear seat and use appropriate child restraints. Never place a rear-facing infant restraint in the front seat. Please see the owner's manual and the instructions provided with your child restraint for additional information.

ABS with EBD

When a sudden surprise is dropped in your path, Lancer EX's ABS (Anti-lock Braking System) gives you the ability to maneuver safely around obstacles as you slow down. The EBD (Electronic Brake-force Distribution) assists by applying additional force to the rear brakes as needed, enabling quicker stops even when carrying passengers.

Note: ABS can help a driver prevent unsafe situations while braking, but is never a substitute for safe driving. ABS does not always reduce stopping distances. Stopping distance can be influenced by many factors including road surface conditions and friction between the tires and the road surface.

RISE Body

Lancer EX's safety-consciousness starts at the very beginning, with the construction of the RISE (Reinforced Impact Safety Evolution) body. This design protects occupants by employing extensive front and rear crumple zones to absorb impact energy before it can be transferred to the cabin. The cabin and doors, meanwhile, have been constructed with a highly rigid frame and reinforced beams to redirect energy and damage around and away from the occupants.

Comfort and utility

Performance never fails to impress, but don't forget you're still human. A comfortable interior appointed with amenities throughout take an exciting ride and make it even more enjoyable for everyone on board. Lancer EX also provides you with a spacious and convenient cargo area and other practical features. You have a life, after all.

Comfortable Seating

Lancer EX's larger body allows for a roomier interior, especially for rear passengers, who will enjoy the increased leg and headroom, and the higher hip point. This gives everyone more room to stretch out and enjoy the ride. Front occupants are also sure to appreciate the sport seats with lumbar support, available on GT models.

Cargo Space

The new Lancer EX features a large and convenient trunk space, providing up to 351* liters of storage capacity. The lid has been redesigned with hinges to the sides to provide more efficient use of space and avoid hitting your cargo. For added convenience, stored items may be accessed from the interior via the 60:40 split folding rear seatbacks.

*With the optional trunk floor box, the total trunk space is 315 liters.

Fully Automatic Air Conditioner

For the comfort of you and your passengers, Lancer EX features a fully automatic climate control system for front and rear seats.

GLX

ENGINE / TRANSMISSION

- 2.0-liter MIVEC engine INVECS-III CVT with 6-step Sports Mode
- 1.6-liter MIVEC engine 5-speed manual/ INVECS-II 4-speed automatic

EXTERIOR

- Front grill with upper chrome/ lower material black
- 16-inch full wheel covers
- Power door mirrors
- Rear fog lamp

INTERIOR

- Plain knit seats
- Black panels
- 3-spoke urethane steering wheel
- Chrome air outlet knobs
- Manually controlled air conditioner with air filter
- Driver's and passenger's front SRS airbag (dual-stage)
- AM/FM radio, CD player with center display
- 4 speakers
- Keyless entry system

Black plain knit seats with black panels

Note: Some of the equipment may vary in appearance or availability according to market. Please consult your local Mitsubishi dealer/distributor for more detailed information.
