

Future history

Mitsubishi Lancer first hit the streets in 1973 and has never looked back. Over the past three decades, Lancer has evolved into a sports machine like no other, turning heads on city streets and rally courses alike. After nine generations of development, Mitsubishi's passion for driving has created a blend of power, performance and aerodynamics that will have sports driving connoisseurs instantly hooked, all combined with a style that is undeniably Lancer.

MITSUBISHI MOTORS

Drive@earth

Born to Go

Sport goes beyond styling or specifications, it's a way of living; it's how you announce your presence to the world. Blending the confident poise of nearly four decades of sports sedan evolution with a passion for sporty excitement that has never faded, Lancer EX embodies the pure pleasure that can only be found behind the wheel.

2.0-liter GT shown with optional equipment / Titanium Gray Metallic [U17]
Equipment may vary according to market.

A moving performance

Away from the crowds, when the spotlights have dimmed, Lancer EX still manages to take center stage. Genuine style never needs to shout for attention, it's simply a natural attraction.

The best seat in the house

It's a shame, really. Something so beautifully designed that you'll hardly ever need to look at it. The cockpit of the new Lancer EX has been ergonomically laid out to put every control exactly where intuition tells you it should be. Paddle shifters and audio controls have also been added to the steering wheel, giving you the control you want without ever needing to take your eyes off the road ahead.

2.0-liter GT / Black seats
Equipment may vary according to market.

Color Liquid Crystal Multi-information Display

The color liquid crystal multi-information display provides a useful readout of vehicle, trip and exterior conditions. With a large, 3.5-inch size for improved visibility, this display makes it easy for drivers to stay informed.

Magnesium Paddle Shifters

Take command of the drive in a whole new way with Lancer EX's racing-inspired paddle-shift system. Built directly into the steering wheel, they provide the thrill of total control without taking your attention from the road ahead.

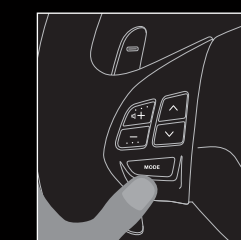

Multi-function Steering

Lancer EX puts an array of functions quite literally at your fingertips. Built directly into the steering wheel for safety and convenience, audio, cruise control and paddle shifters can all be accessed without taking your eyes from the road.

Cruise Control

For optimized convenience on long drives, the cruise control is built into the steering wheel for fully intuitive operation.

Audio Control

Volume, track selection and sound mode controls are arranged on the steering wheel for easy access, allowing you to fine-tune your listening environment without taking your hands from the wheel.

Equipment may vary according to market.

The inside story

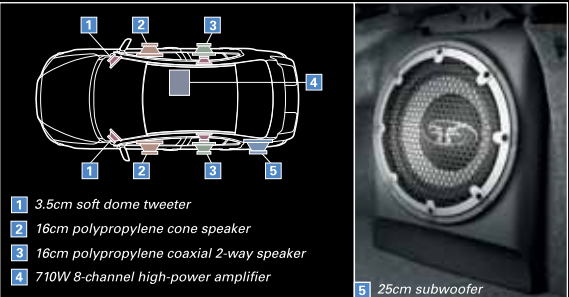

After the racing-inspired passion of Lancer EX's exterior design, what awaits you on the inside may come as a surprise. Serene and inviting, Lancer EX provides an environment free from the distractions of the outside world. Insulated doors keep out unwanted noise, while the automatic climate control and spacious seating make Lancer EX a pleasure to drive before you've even started on your way.

Rockford Fosgate® Premium Sound System

Excitement now has a soundtrack. This high-quality sound system includes a 710W amp with DSP (Digital Signal Processor) plus a precision 9-speaker array with subwoofer. Balanced exactly to Lancer EX's interior acoustics, they turn the driver's seat into your personal concert hall.

9-Speaker System

The Rockford Fosgate® speakers and powerful trunk-mounted subwoofer deliver all the impact and sound reproduction of a quality home system, for full audio enjoyment every time you go for a drive. Output settings allow you to balance the output for rear passengers, front passenger, or when you have Lancer EX all to yourself.

High Power (710W) Amp with DSP (Digital Signal Processor)

The amplifier features a high-performance 32-bit DSP, further enhanced by the 24-bit Burr-Brown DA converter and including surround-sound support (DTS Neural, Premedia Wide).The Dolby volume control feature automatically adjusts sound levels for different sources and music types, and the new Premedia HD ensures high quality playback of compressed music formats, such as MP3. The equalizer now features five settings: rock, pop, hip-hop, jazz and normal, and the sound balance can be further adjusted based on listening position.

Keyless Operation System

This intelligent remote commander gives you the ability to lock and unlock the doors, open the trunk, and even start the ignition, all without using your keys.

Equipment may vary according to market.

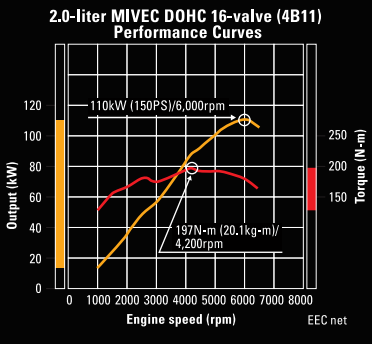

Performance

Engine and transmission

However you choose to drive, the pure excitement of the rally courses that gave birth to Lancer EX is unmistakable. It's in the hum of power rising from beneath the hood, and the exquisite smoothness of the CVT as it shifts up and down. Once Lancer EX has spoken to you, you'll understand.

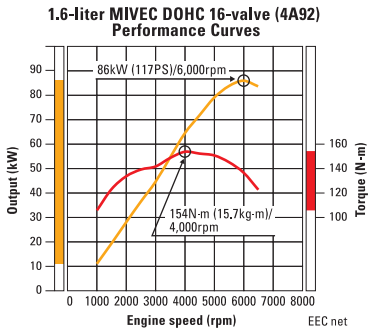

2.0-liter MIVEC Engine

Absolute thrill in a 4-cylinder package. Lancer EX's 2.0-liter powerhouse uses a lightweight aluminum block for optimum performance as it puts out 110kW(150PS) to take control of city streets and open highways alike. MIVEC technology provides optimal valve timing at both low and high rev ranges, to give you the most of every curve and straightaway out there.

1.6-liter MIVEC Engine

The 1.6-liter engine is a concentrated rush of excitement, laying down enough power for sporty performance wherever there's pavement to be found. Like its bigger cousin, this engine also features an aluminum block for better efficiency and MIVEC technology for more aggressive starts and maximum high-range output.

CVT with INVECS-III

With CVT (Continuously Variable Transmission), Lancer EX offers a new level of driving enjoyment: an automatic transmission that's quiet, efficient, and eliminates the harshness and power lag of traditional gear changes.

MIVEC Technology

MIVEC (Mitsubishi Innovative Valve timing Electronic Control) is an exclusive technology that adjusts intake timing for optimal performance across the rev range. At low ranges, MIVEC provides on-demand acceleration for quicker starts, while higher ranges receive an impressive boost of power.

Sports Mode with Magnesium Paddle Shifters

Available on CVT models, Sports Mode lets you enjoy the racing feel of changing gears with a 6-step shift control that still provides the convenience of an automatic transmission. For even greater control, paddle shifters built directly into the steering wheel make shifting as easy as a single press of your finger.

4AT with INVECS-II

Available on 1.6-liter models, the 4-speed automatic transmission provides reliability and convenience with the intelligent performance of INVECS-II shift control. Designed to minimize torque and acceleration fluctuations, the 4AT gives smoother shifting and optimal engine performance.

5MT

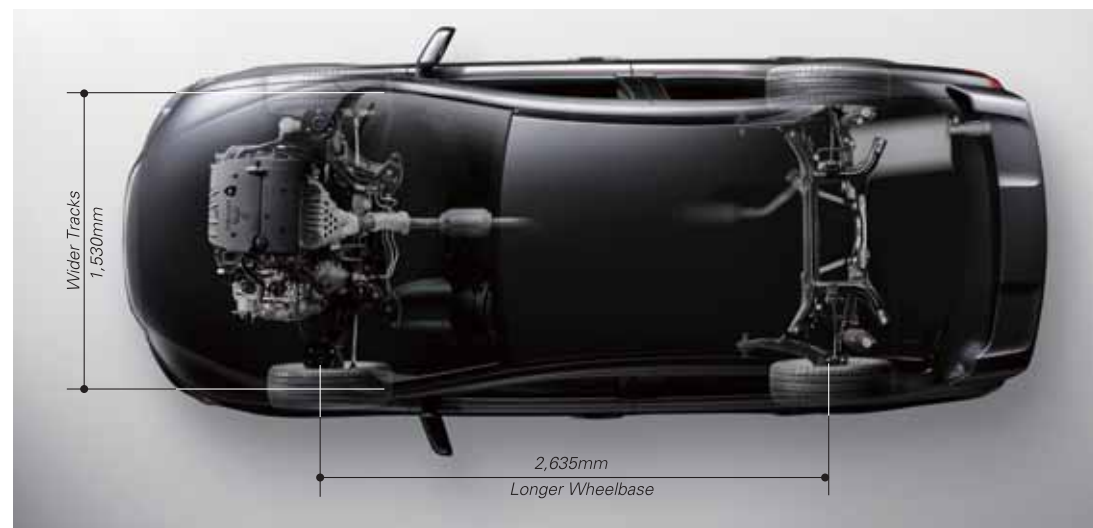

For old-school drivers who insist on the classic feel of a manual transmission, Lancer EX compromises nothing. Keyless synchronizers on all gears deliver a superior shift-feel, letting you enjoy the primal excitement of hands-on control as the precision-tuned 5MT answers your every command.

2.0-liter GLS / Cool Silver Metallic [A31]
Equipment may vary according to market.

Balance and control

Power without stability will get you nowhere fast. Lancer has long been known for pushing the envelope in providing drivers with unparalleled driving control, so as exceptional as the Lancer EX is, its advanced handling and stability should come as no surprise. Incorporating the lessons of the racetrack and the rally course, Lancer EX fuses quick-responding suspension with flex-resisting body construction for high performance driving that's sure and confident.

End-to-end Design Stability

Every piece of Lancer EX's body and frame has been designed with greater stability in mind. With a longer wheelbase and wider tracks than previous models, the new Lancer EX's larger footprint means greater stability, especially when cornering.

4-Wheel Independent Suspension

Incorporating front MacPherson struts and a rear multi-link system, Lancer EX makes sure work of unpredictable conditions. Responding exactly as needed, the independent suspension keeps all four wheels firmly on the ground for performance that's as reliable as it is comfortable.

Reinforced Body

Flexibility may be an asset in drivers, but car bodies need to be rigid and unchanging. The Lancer EX body has been reinforced at key points to resist torsion to keep everything smoothly on track when rounding curves or navigating the occasional bumpy road.

18-inch Tires with Light Alloy Wheels

Lancer EX GT features a more muscular set of 18-inch tires for improved grip, cornering and overall performance. A cool set of lightweight alloy wheels doesn't hurt, either.

Safety and reliability

The unexpected. You can't predict it, but you can be prepared for it. Because surprises can come in any form, Lancer EX includes an array of active and passive safety features to protect all occupants from harm. Powerful anti-lock brakes and brake-force distribution enable drivers to avoid hazards in the road, while the RISE body works to absorb collision damage and direct it away from the interior.

Note: Equipment may vary from the image shown.

7-Airbag System

To help keep occupants in every seat safe in the event of a collision, Lancer EX is available with a new 7-airbag system to provide increased safety from all sides. Curtain airbags extending along both sides reduce damage to front and 2nd-row occupants in a side collision, while the 1st-row occupants also have front and side airbags. For further safety, a driver's knee airbag helps reduce damage to the legs in a forward collision.

Auto Rain-Sensing Wipers and Auto Lighting Control

Located on the windshield just behind the rearview mirror, this sensor automatically activates the wipers at the first sign of rain. It can be set to turn on the headlamps when things turn dark.

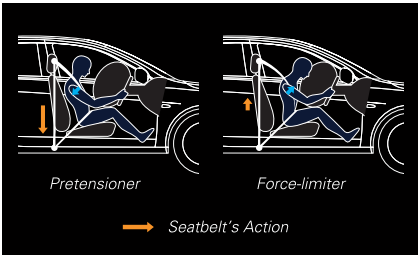

RISE Body

Lancer EX's safety-consciousness starts at the very beginning, with the construction of the RISE (Reinforced Impact Safety Evolution) body. This design protects occupants by employing extensive front and rear crumple zones to absorb impact energy before it can be transferred to the cabin. The cabin and doors, meanwhile, have been constructed with a highly rigid frame and reinforced beams to redirect energy and damage around and away from the occupants.

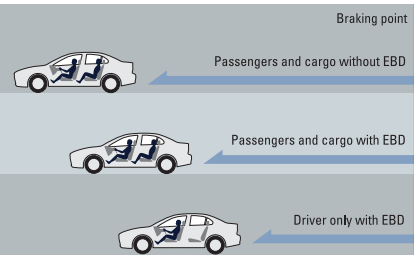

AFS (Adaptive Front-lighting System) with HID Headlamps

What you can't see, can hurt you. Lancer EX's HID (High Intensity Discharge) headlamps adjust the beams as you corner. This gives you a better view of the road ahead, and makes you more visible to other drivers.

Seatbelts with Pretensioners and Force-limiters

The driver's and front passenger's seatbelts are available with pretensioners that reel in to secure the occupant in the initial moments of a collision, and force-limiters that gently release the occupant to reduce the risk of injury.

ABS with EBD

When a sudden surprise is dropped in your path, Lancer EX's ABS (Anti-lock Braking System) gives you the ability to maneuver safely around obstacles as you slow down. The EBD (Electronic Brake-force Distribution) assists by applying additional force to the rear brakes as needed, enabling quicker stops even when carrying passengers.

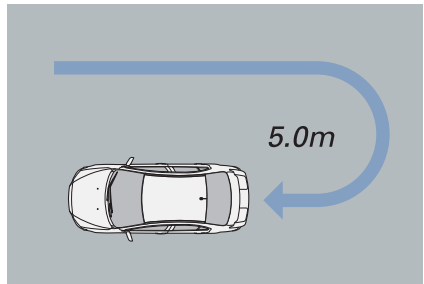

Comfort and utility

Performance never fails to impress, but don't forget you're still human. A comfortable interior appointed with amenities throughout take an exciting ride and make it even more enjoyable for everyone on board. Lancer EX also provides you with a spacious and convenient cargo area and other practical features. You have a life, after all.

Comfortable Seating

Lancer EX's larger body allows for a roomier interior, especially for rear passengers, who will enjoy the increased leg- and headroom, and the higher hip point. This gives everyone more room to stretch out and enjoy the ride. Front occupants are also sure to appreciate the sport seats with lumbar support, available on GT models.

Tight Cornering

Lancer EX carries you through tight squeezes with ease, boasting a turning radius of just 5.0 meters.

Fully Automatic Air Conditioner

For the comfort of you and your passengers, Lancer EX features a fully automatic climate control system for front and rear seats.

Cargo Space

The new Lancer EX features a large and convenient trunk space, providing up to 351* liters of storage capacity. The lid has been redesigned with hinges to the sides to provide more efficient use of space and avoid hitting your cargo. For added convenience, stored items may be accessed from the interior via the 60:40 split folding rear seatbacks.

* With the optional trunk floor box, the total trunk space is 315 liters.

GT

ENGINE / TRANSMISSION

- 2.0-liter MIVEC engine
- INVECS-III CVT with 6-step Sports Mode

EXTERIOR (in addition to GLS)

- Sport type front grille with large silver accent and black center
- 18-inch light alloy wheels
- Front fog lamps
- Side airdams
- Rear spoiler
- Chrome exhaust finisher

INTERIOR (in addition to GLS)

- 3-spoke leather-wrapped steering wheel with audio and cruise controls
- Leather-wrapped gearshift knob
- Magnesium paddle shifters
- Driver's and front passenger's front SRS airbags (dual-stage)
- AM/FM radio, CD player with center display with touch panel (digital clock and audio information) and auxiliary audio jack
- Front door trim with synthetic leather insert and stitch

Black stripe pattern suede knit seats with gloss black panels
